Subject: Replacement top Juvinle Justice

Ryan

Replacement top 21" x 229" X 3/4" laminated. \$679.00 Installed.

Note, If we leave the existing top on and use it as a subtop, we will be able to attach the new top by using screws from the bottom up. We would build the new top with a drop edge to cover the existing top. However, if we simply remove the existing top and replace with a laminated version, we would only be able to glue the top down as we can't fasten from the top surface due to the laminate. I'm a little worried about a glue only install on this large of a top, I can't be sure it will hold properly.

We do have a source that can laminate this in the field, he quoted \$730.00. He would install after hours due to glue and dust issues.

Please let me know how to proceed.

Mike Riley
